EXAM PAPERS PLUS

11+ Kingston

Test 11
English

50 minutes
68 marks

- This is a multiple-choice test paper. Mark your answer to each question on the separate answer sheet.
- Draw a firm line clearly through the letter that represents the correct answer. If you make a mistake, rub it out as completely as you can and mark your new answer.
- Be sure to keep your place on the answer sheet. Mark your answer in the box that has the same number as the question on this test paper.
- If you are not sure of an answer, choose the one you think is best.
- Read the instructions carefully before beginning each section.
- Work as quickly and as carefully as you can.

NB: The parent / tutor administering this test should provide a time reminder at the halfway point and when 5 minutes remain.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

Read this passage carefully and then answer the questions that follow.

Still Missing

by Beth Gutcheon

You could hardly get to age thirty-four without learning something about loss. By thirty-four you're bound to have lost your Swiss Army knife, your best friend from fourth grade, your chance to be centre forward on the starting team, your hope of the Latin prize, quite a few of your illusions, and certainly, somewhere along the line, some significant love. Susan Selky had in fact recently lost an old battle, for her marriage to the man she was in love with, and with it, many ancillary dreams of more babies, and of holding his hand in the dark when they were old.

It may be that one loss helps to prepare you for the next, at least in developing a certain rueful sense of humour about things you're too old to cry about. There's plenty of blather, some of it true, about turning pain into growth, using one blow to teach you resilience and to make you ready for the shock of the next one. But the greater truth is that life is not something you can go into training for. There was nothing in life that Susan Selky could have done to prepare for the breathtaking impact of losing her son.

Susan Selky, bright, loyal, stubborn, shy. If you knew her professionally, you probably wouldn't have guessed that whatever accomplished forays she made daily outside, she thought with relief of her narrow brick house on Fremont Street as if it were a shell. Inside, dumb and unguarded as a mollusc, was the heart of her life, her private days and nights with Alex.

Alexander Graham Selky, Jr, age $6\frac{3}{4}$, a freelance spaceman. A small, sturdy child with a two-hundred-watt smile and a giggle like falling water, a child who saw *Star Wars* once with Mommy, twice with Daddy, and once again with TJ. Owner-trainer of Taxi, an oversized Shetland sheepdog.

Taxi was a near-total loss in the training department. He had only managed to learn to start barking with joy when Alex got home from school, a full minute before any human could have heard his feet on the step, and to snuggle himself soundlessly onto Alex's bed at night against orders. Most evenings when she went to kiss Alex one more time on her way to bed, Susan found Taxi burrowed against her sleeping boy with his nose in his armpit, still as a statue except for the wistful eyes that tracked her approach and begged, 'Pretend you don't see me.'

'He thinks he's my brother,' said Alex. 'He thinks he's a fur person.'

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

Alex Selky, going on seven, so eager to grow up, kissed his mother goodbye on their front steps on the hot bright morning of May 15 1980, and marched himself down the street on his way to the New Boston School of Back Bay, two blocks from his corner. He never arrived at school, and from the moment he turned the corner, he apparently disappeared from the face of the earth.

Answer the questions below. Look at the passage again if you need to.
You should choose the **best** answer and mark its letter on your answer sheet.

1 Which statement **cannot** be inferred from the text?

A Susan Selky was thirty-four when her son disappeared.
B Alex Jr had seen *Star Wars* four times.
C Life had dealt Susan more than one blow.
D Susan lived in a terraced house.

2 Which word does **not** describe Susan's personality?

E faithful
F intelligent
G obstinate
H extroverted

3 Which one of the following is **not** a theme of this extract?

I love
J relationships
K loss
L revenge

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

4 What did Alex Jr **not** possess?

M an irritating laugh
N a dazzling smile
O a loving nature
P a solid build

5 Which word from the extract is **not** a clue that the author is American?

Q Mommy
R blocks
S grade
T mollusc

6 Which one of these statements about Taxi is **not** true?

U He started barking when he heard Alex's feet on the front step.
V He was not well-trained.
W He liked sleeping on Alex's bed.
X He was large.

7 What was the most important thing in Susan's life?

A her son
B her husband
C her job
D her house

Read the following passage carefully.
The first sentence has been removed from each paragraph of this passage.

1	It was an intellectual and scientific adventure as well as a voyage of discovery into the mysteries of apple genetics. Central Asia held the key.

2	Were they mythical, living in people's imaginations as a strange, other-worldly Garden of Eden, or did they actually exist? Most people did not give it a second thought. Down on the cider farm, apples lived in orchards and hedgerows and could be scrumped. That was it. And if apples came from anywhere, it was either from God or somewhere further east.

3	They often survive in remote valleys and rugged mountains where they can flourish. But apples have one distinct advantage over some other fruits. They can spread of their own accord, either with the help of birds, bears, bees, camels, and horses, or with the help of nomads and early farmers. Nomadic trade carried apples far and wide. Fruit was always a valuable commodity.

37 Which sentence should go at the beginning of the **first paragraph**?

A For several thousands of years no one really knew the exact location of these wild apple forests.

B Wild apple stocks are notoriously elusive.

C Early archaeological remains of apples point to the Middle East and Caucasus.

D The road to Kazakhstan was not just a physical and spiritual journey.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

38 Which sentence should go at the beginning of the **second paragraph**?

E For several thousands of years no one really knew the exact location of these wild apple forests.

F Wild apple stocks are notoriously elusive.

G Early archaeological remains of apples point to the Middle East and Caucasus.

H The road to Kazakhstan was not just a physical and spiritual journey.

39 Which sentence should go at the beginning of the **third paragraph**?

I For several thousands of years no one really knew the exact location of these wild apple forests.

J Wild apple stocks are notoriously elusive.

K Early archaeological remains of apples point to the Middle East and Caucasus.

L The road to Kazakhstan was not just a physical and spiritual journey.

21 Buns each need 60 g of flour to be made.
Flora has 1.1 kg of flour, Finlay has 0.08 kg of flour and Faye has half a kilogram of flour.

If all 3 amounts of flour are put together to make a batch of buns, how many buns can be made?

22 What decimal number is exactly halfway between $\frac{1}{5}$ and $\frac{1}{10}$?

23 Damian buys 3 pens and 4 rubbers for £2.50.
David buys 2 pens and 3 rubbers for £1.80.

How much does Dev pay for 1 pen and 1 rubber in pence?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

24 $p + 120 \div 15 = 13$

$p = ?$

25 An approximate formula that changes the temperature from Fahrenheit (°F) into Celsius (°C) is to subtract 30 from the Fahrenheit temperature and then divide by 2.

What is the approximate temperature in °F of the temperature 50°C?

26 A total of 1800 votes are cast in an election between Councillor A and Councillor B.
The ratio of votes cast to Councillor A, Councillor B and spoilt ballot papers is 6:2:1.

How many more people voted for Councillor A than Councillor B?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

27 A flask holds 2.5 litres when full.
The flask is 95% full of water.

How many more ml of water can be added to the flask before it is full?

28 A hut is purchased for £50 000.
It increases in value by 20% during the next year.
It then decreases in value by 20% the following year.

How many thousands of pounds is the hut now worth?

29 What is the value of 100 ÷ 0.5?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

30 A shop worker recorded how much money was taken during Monday to Friday one week.

Monday	£100
Tuesday	£240
Wednesday	Twice as much as Friday
Thursday	Half as much as Friday
Friday	**?**
Total	£1180

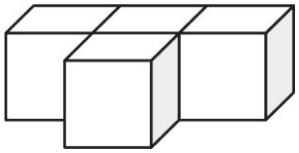

How much money, in pounds, did the shop take on Friday?

31 5 rubbers cost the same as 2 rulers.
3 rulers cost the same as 1 notebook.

How many rubbers cost the same as 2 notebooks?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

32 The following 3-dimensional shape is made from 4 cubes, which are each 2 cm in length, stuck together.

The surface area of the shape is to be painted all over.
5 ml of liquid paint is required for each 3 cm^2 of the surface area.

How many ml of paint are required to paint the shape?

33 P, Q and R are all positive numbers (but not all whole numbers).

$P \times Q = 8$
$Q \times R = 5$
$P \times R = 160$

What is the value of $4 \times Q$?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

34 A number is a multiple of 11 if the difference between 'the sum of the digits in the odd positions' and 'the sum of the digits in the even positions' is a multiple of 11.

For example, 123 849 is a multiple of 11 because:

1 + 3 + 4 = 8

2 + 8 + 9 = 19

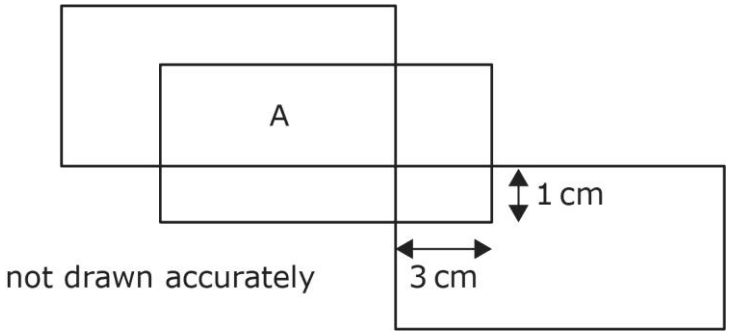

19 − 8 = 11.

Which digit needs to go in the blank space for the number below to be divisible by 11?

1 523 _43 251

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

35 Three rectangles each have a perimeter of 24 cm and are placed together as shown.

The length of each rectangle is twice the size of its width.

What is the area in cm^2 of the section of the shape labelled A?

36 The Fastfeet Football team won 75% of its games during the season, with no draws.
The team lost 7 games.

How many games did the team play during the season altogether?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

37 7 mangoes cost £5.25.

How many mangoes can I buy with £25?

38 Here is part of a bus timetable.
The buses travel from the town centre to the school.

	Bus 1	Bus 2
Town Centre	08:10	09:10
Cinema	08:17	09:15
Coach Station	08:22	09:19
Leisure Centre	08:27	09:23
Hospital	08:34	09:28
School	08:42	09:36

Eve travels on Bus 2 from the cinema to the hospital.

What percentage of the whole time of the journey was the section from the cinema to the hospital?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

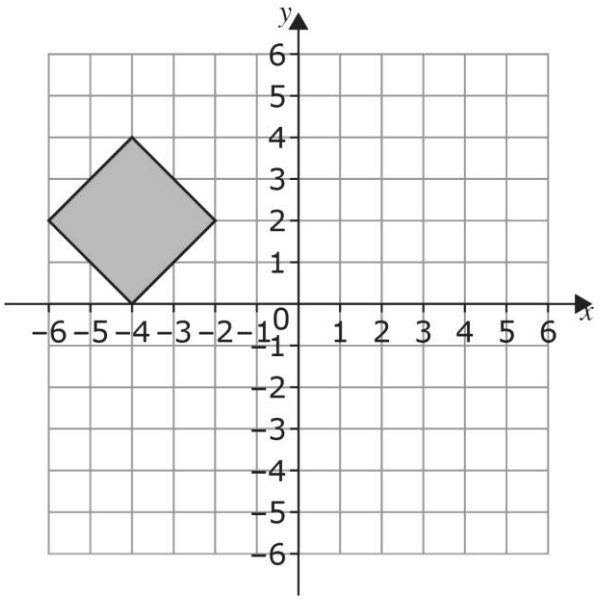

39 A kite is shown.

What is the difference in degrees between one of the largest angles and the smallest?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

40 The diamond is positioned as shown.

A new diamond is drawn at coordinates (-4, -2), (0, 2), (4, -2) and (0, -6).

How many times larger is the area of the new diamond than the area of the diamond shown?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

41 Let $5! = 5 \times 4 \times 3 \times 2 \times 1$

What is the value of $\frac{20!}{19!}$?

42 In a sale, prices have been reduced by 40%.

If Meera buys a coat that is £54 in the sale, what was the original price in pounds?

43 Towns A, B and C are situated on a straight road.

The distance from A to B and A to C is in the ratio of 2:3.
Jim cycles at a constant speed of 10 km per hour from Town A to C and it took him 45 minutes.

How far is it in km from Town A to Town B?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

44 If $\frac{6}{7}$ of a number is 72, what is $\frac{1}{4}$ of the number?

45 Arun and Aria both start with the same positive integer.
Arun adds 6 to make a new number and Aria adds 9 to make her new number.
Arun and Aria multiply their new numbers together and get 154.

What was the original positive integer?

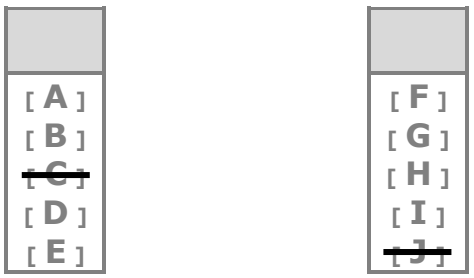

46 What is the product of 'the difference between the 14th odd number and the 9th odd number' and 'the remainder when the 4th square number is divided into the 5th cube number'?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

11+ Kingston – Test 11 – Answer Sheets

English Practice Test

Please mark boxes with a thin horizontal line like this:

In the first example, on the left, the answer selected is C.

In the second example, on the right, the answer selected is J.

A line is drawn through the letter. It may go outside the brackets but MUST NOT cross the outer border of the box.

Maths Practice Test

For multiple-choice questions, please mark boxes in the same way as shown above.

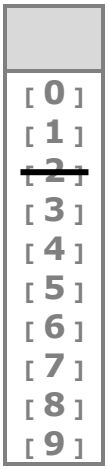

For questions that require numerical answers, there will be columns that represent units, tens, hundreds and thousands.

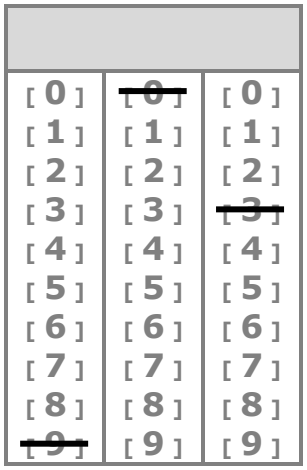

For a single-digit answer, there will be one column on the answer sheet in which to record your answer.

For a 2-digit answer, there will be two columns on the answer sheet.

For a 3-digit answer, there will be three columns on the answer sheet, and so on.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

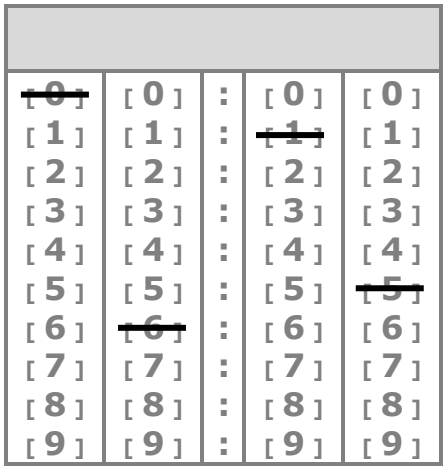

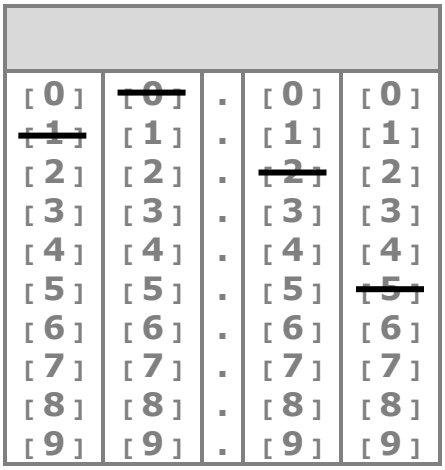

In the first example, on the left, a single-digit answer of 2 is marked.

In the second example, on the right, a 3-digit answer of 903 is marked.

A time answer would be given as a 4-digit answer like a 24-hour digital clock and a money answer would be given in pounds as a decimal number.

In the first example, on the left, an answer of quarter past 6 in the morning (06:15) is marked.

In the second example, on the right, an answer of 10 pounds and 25 pence (£10.25) is marked.

A line is drawn through each digit. It may go outside the brackets but MUST NOT cross the outer border of the box.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.
