EXAM PAPERS PLUS

11+ Kingston

Practice Test 3
English

50 minutes
100 marks

- *This is a multiple-choice test paper. Mark your answer to each question on the separate answer sheet.*
- *Draw a firm line clearly through the letter that represents the correct answer. If you make a mistake, rub it out as completely as you can and mark your new answer.*
- *Be sure to keep your place on the answer sheet. Mark your answer in the box that has the same number as the question on this test paper.*
- *If you are not sure of an answer, choose the one you think is best.*
- *Read the instructions carefully before beginning each section.*
- *Work as quickly and as carefully as you can.*

NB: The parent or tutor administering this test should provide a time reminder at the halfway point and when 5 minutes remain.

The passage below is taken from *The Secret Life of Space*, by Heather Couper and Nigel Henbest. Ten words have been removed. Choose the **best** word from the list to go in each numbered space and mark its letter on your answer sheet. Each word can be used only once.

A	**makeshift**	**F**	**immense**
B	**wrapping**	**G**	**dark**
C	**natural**	**H**	**far**
D	**witness**	**I**	**overhead**
E	**burn**	**J**	**ceremony**

In the **(1)** hours before dawn, the stars seem to crowd down on Stonehenge: a **(2)** planetarium dome set on top of the **(3)** stone arches that surround us. Stretched out – like a prehistoric sacrifice – on the central Altar Stone, we trace out the ancient constellations **(4)**. The stars of the mighty hero Hercules confront his primaeval foe, the celestial Dragon, **(5)** its coils around the Pole Star.

It is the morning of 21 June 1984, and we're here to **(6)** a re-enactment of the oldest and most sacred astronomical **(7)** in the world: sunrise at Stonehenge, on Midsummer's Day. It's **(8)** from being a quiet mystical embrace of the cosmos, though. Campfires **(9)** nearby, where devotees are celebrating all night long in **(10)** tents; deep rhythms drum out, and our nostrils are assailed by the smells of seared food and exotic smoking materials.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

The passage below is taken from *A Modern Cinderella*, by Louisa May Alcott. The paragraphs labelled **A–F** are in the wrong order. Put them into the **correct** order.

A	"Behold, she watereth her linen with salt tears, and bewaileth herself because of much tribulation. But, lo! Help cometh from afar: a strong man bringeth lettuce wherewith to stay her, plucketh berries to comfort her withal, and clasheth cymbals that she may dance for joy."

B	"How good of you, to come through all this heat, and not to laugh at my despair!" she said, looking up like a grateful child, as she led him in.

C	As he spoke, John gave his own gift in his mother's name, and bestowed himself in the wide window-seat, where morning-glories nodded at him, and the old butternut sent pleasant shadows dancing to and fro.

D	Nan tugged on, growing hotter and wearier, more hurried and more hopeless, till at last the crisis came; for in one fell moment she tore her gown, burnt her hand, and smutched the collar she was preparing to finish in the most unexceptionable style. Then, if she had been a nervous woman, she would have scolded; being a gentle girl, she only "lifted up her voice and wept".

E	The voice came from the porch, and, with her hope fulfilled, Nan looked up to greet John Lord, the house-friend, who stood there with a basket on his arm; and as she saw his honest eyes, kind lips, and helpful hands, the girl thought this plain young man the comeliest, most welcome sight she had beheld that day.

F	"I only obeyed orders, Nan; for a certain dear old lady had a motherly presentiment that you had got into a domestic whirlpool, and sent me as a sort of life-preserver. So I took the basket of consolation, and came to fold my feet upon the carpet of contentment in the tent of friendship."

11 Mark the letter of the paragraph that should come **first**.

12 Mark the letter of the paragraph that should come **second**.

13 Mark the letter of the paragraph that should come **third**.

14 Mark the letter of the paragraph that should come **fourth**.

15 Mark the letter of the paragraph that should come **fifth**.

16 Mark the letter of the paragraph that should come **last**.

Read this passage carefully and then answer the questions that follow.

The Hawaiian Archipelago

by Isabella L. Bird

Isabella Bird went travelling in the 19th century. The following is taken from a letter that she wrote to her sister.

A white, unwinking, scintillating sun blazed down upon Auckland, New Zealand. Along the white glaring road from Onehunga, dusty trees and calla lilies drooped with the heat. Dusty thickets sheltered the cicada, whose triumphant din grated and rasped through the palpitating atmosphere. In dusty enclosures, supposed to be gardens, shrivelled geraniums scattered sparsely alone defied the heat. Flags drooped in the stifling air. Men on the verge of sunstroke plied their tasks mechanically, like automatons. Dogs, with flabby and protruding tongues, hid themselves away under archway shadows. The stones of the sidewalks and the brick of the houses radiated a furnace heat. All nature was limp, dusty, groaning, gasping. The day was the climax of a burning fortnight, of heat, draught, and dust, of baked, cracked, dewless land, and oily breezeless seas, of glaring days, passing through fierce fiery sunsets into stifling nights.

I only remained long enough in the capital to observe that it had a look of having seen better days, and that its business streets had an American impress, and, taking a boat at a wharf, in whose seams the pitch was melting, I went off to the steamer *Nevada*, which was anchored out in the bay, preferring to spend the night in her than in the unbearable heat on shore. She belongs to the Webb line, an independent mail adventure, now dying a natural death, undertaken by the New Zealand Government, as much probably out of jealousy of Victoria as anything else. She nearly foundered on her last voyage; her passengers unanimously signed a protest against her unseaworthy condition. She was condemned by the Government surveyor, and her mails were sent to Melbourne. She has, however, been patched up for this trip, and eight passengers, including myself, have trusted ourselves to her. She is a huge paddle-steamer, of the old-fashioned American type, deck above deck, balconies, a pilot-house abaft the foremast, two monstrous walking beams, and two masts which, possibly in case of need, might serve as jury masts.

Huge, airy, perfectly comfortable as she is, not a passenger stepped on board without breathing a more earnest prayer than usual that the voyage might end

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

propitiously. The very first evening statements were whispered about to the effect that her state of disrepair is such that she has not been to her own port for nine months, and has been sailing for that time without a certificate; that her starboard shaft is partially fractured, and that to reduce the strain upon it the floats of her starboard wheel have been shortened five inches, the strain being further reduced by giving her a decided list to port; that her crank is 'bandaged', that she is leaky; that her mainmast is sprung, and that with only four hours' steaming many of her boiler tubes, even some of those put in at Auckland, had already given way. I cannot testify concerning the mainmast, though it certainly does comport itself like no other mainmast I ever saw; but the other statements and many more which might be added, are, I believe, substantially correct.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

Answer the questions below. Look at the passage again if you need to.
You should choose the **best** answer and mark its letter on your answer sheet.

17 **What did Isabella mean by describing the sun as 'unwinking' (line 1)?**

A The sun was very high in the sky.
B She wanted to make it sound as if the sun was cross.
C The sun was moving slowly in the sky.
D The sun was beating down relentlessly.
E The sun was setting.

18 **Why did Isabella use the word 'supposed' when she wrote 'supposed to be gardens' (lines 4–5)?**

F to tell her sister that the owners had not looked after their gardens properly
G to tell her sister that the heat had ruined the gardens
H to show her dislike of New Zealand in general

19 **Why did dogs hide 'themselves away under archway shadows' (lines 7–8)?**

I Something must have scared them.
J They were obviously stray dogs with nowhere else to go.
K They were trying to get out of the sun.
L They were trying to avoid being seen and captured.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

20 **What was the main purpose Isabella had in writing the first paragraph?**

M to describe the beauty of New Zealand
N to let her sister know exactly where she was
O to get across just how unbearable the heat was
P to let her sister know that she had arrived safely

21 **Which of the following statements is true?**

Q Isabella found being on the *Nevada* more comfortable than being on shore.
R Isabella found the *Nevada* really uncomfortable.
S Isabella had travelled on the *Nevada* before.
T Isabella was extremely nervous about travelling on the *Nevada*.
U Isabella particularly wanted to travel on the *Nevada*.

22 **What is meant by a boat being 'unseaworthy' (line 21)?**

V It does to deserve to go out to sea.
W It's not in a good enough condition to go out to sea.
X It has not yet been out to sea.
Y It has been out to sea too many times.

23 **What do the words 'patched up' (line 23) suggest?**

A The *Nevada* had been made as good as new.
B The *Nevada* had a patch on it.
C The surveyor had been wrong to condemn the *Nevada*.
D The *Nevada* was still not in a great state.

24 **Which of the following best describes Isabella?**

E emotional and complaining
F nervous and sensitive
G reckless and thoughtless
H independent and educated
I old-fashioned and dull

25 **Why could Isabella not 'testify concerning the mainmast' (line 38)?**

J The mainmast had broken away.
K She was no expert on mainmasts.
L She did not see the mainmast.

Read this passage carefully and then answer the questions that follow.

Persuasion

by Jane Austen

The following extract mentions Sir Walter, his wife (Lady Elliot) and his wife's friend (Lady Russell).

Vanity was the beginning and the end of Sir Walter Elliot's character; vanity of person and of situation. He had been remarkably handsome in his youth; and, at fifty-four, was still a very fine man. Few women could think more of their personal appearance than he did, nor could the valet of any new-made lord be more delighted with the place he held in society. He considered the blessing of beauty as inferior only to the blessing of a baronetcy; and the Sir Walter Elliot, who united these gifts, was the constant object of his warmest respect and devotion.

His good looks and his rank had one fair claim on his attachment; since to them he must have owed a wife of very superior character to anything deserved by his own. Lady Elliot had been an excellent woman, sensible and amiable; whose judgement and conduct, if they might be pardoned the youthful infatuation which made her Lady Elliot, had never required indulgence afterwards. — She had humoured, or softened, or concealed his failings, and promoted his real respectability for seventeen years; and though not the very happiest being in the world herself, had found enough in her duties, her friends, and her children, to attach her to life, and make it no matter of indifference to her when she was called on to quit them. — Three girls, the two eldest sixteen and fourteen, was an awful legacy for a mother to bequeath; an awful charge rather, to confide to the authority and guidance of a conceited, silly father. She had, however, one very intimate friend, a sensible, deserving woman, who had been brought, by strong attachment to herself, to settle close by her, in the village of Kellynch; and on her kindness and advice, Lady Elliot mainly relied for the best help and maintenance of the good principles and instruction which she had been anxiously giving her daughters.

This friend, and Sir Walter, did *not* marry, whatever might have been anticipated on that head by their acquaintance. — Thirteen years had passed away since Lady Elliot's death, and they were still near neighbours and intimate friends, and one remained a widower, the other a widow.

X $33 \times \frac{1}{2}$

Y $3.9 \div 0.3$

6 Kara thinks of a number, X.
She subtracts X from 40, doubles the result and then divides by 8.
The final answer is 6.

What is the value of X?

A 56
B 64
C 24
D 16
E 30

7 If you throw a fair dice twice, what is the probability of getting a six followed by another six?

F $\frac{1}{3}$

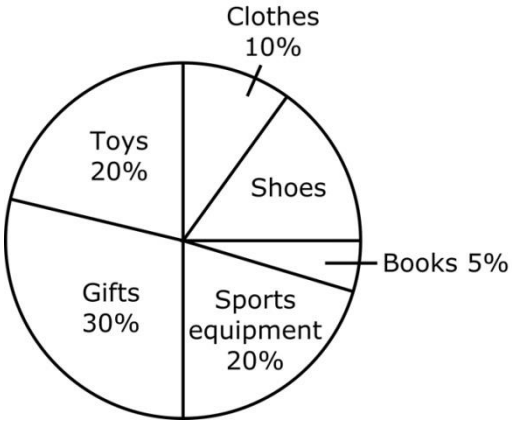

G $\frac{1}{8}$

H $\frac{1}{36}$

I $\frac{1}{6}$

J $\frac{1}{12}$

8 A department store has 1200 m^2 of selling space.
The pie chart shows how the selling space in the store is allocated.

How much space is allocated to shoe sales?

K 120 m^2

L 140 m^2

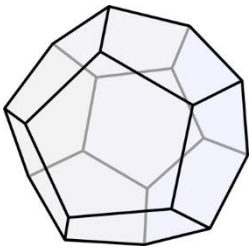

M 160 m^2

N 165 m^2

O 180 m^2

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

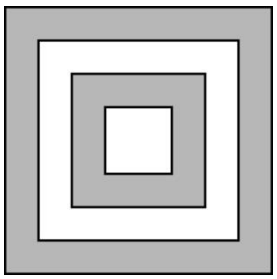

9 A regular dodecahedron is made from regular pentagons and has 12 faces.

How many edges does a regular dodecahedron have?

P 30
Q 28
R 26
S 32
T 24

10 The shape below is made from a grey square of side length 4 cm, a white square of side length 3 cm, a grey square of side length 2 cm and a white square of side length 1 cm.
The squares are placed on top of each other in order of size.

What is the total area of the grey regions that are still visible?

U 20 cm^2
V 16 cm^2
W 8 cm^2
X 12 cm^2
Y 10 cm^2

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

11 What is $1\frac{2}{3} \times 2\frac{1}{2}$?

A $4\frac{1}{6}$

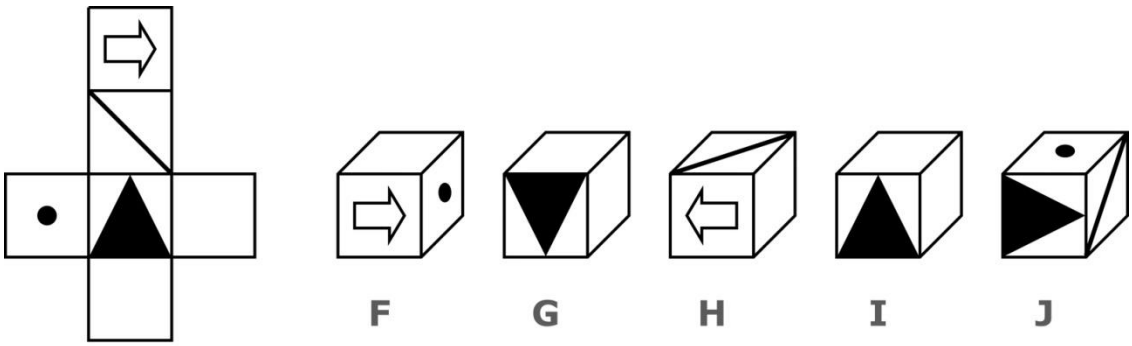

B $3\frac{1}{2}$

C $5\frac{3}{8}$

D $4\frac{5}{6}$

E $5\frac{3}{4}$

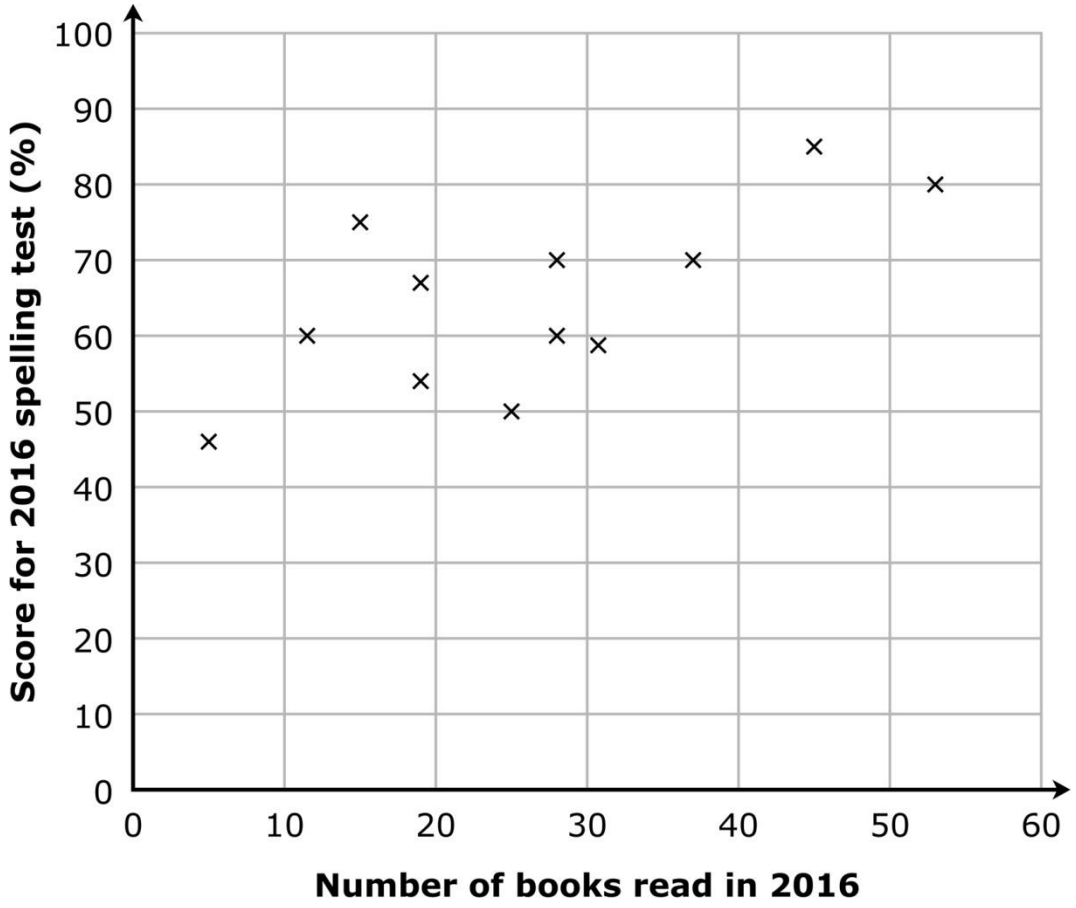

12 Which cube can be made from the net shown?

13 What is 151 854 ml rounded to the nearest litre?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

14 The graph shows the number of books that twelve children read in one year and the percentage scores that the same children achieved in a spelling test in the same year.

How many of the children read less than the median number of books but scored higher than the median percentage for the spelling test?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

15 A lift can hold a maximum of five people and a total maximum weight of 450 kg. It shuts down if the maximum weight or number of people is exceeded. Four people with an average weight of 86 kg enter the lift.

What is the maximum weight, in kg, that the fifth person can be for the lift to still work?

16 Each of the following letters represents a number.

B + E + L + L = 25
L + E + T = 19
B + L + E + E + T = 24

What is the value of T + E + L + L?

17 What is the difference between the 3rd cube number and the 5th square number?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

18 Two boxes have the same volume.
One of the boxes measures 20 cm × 50 cm × 64 cm.
The other box is in the shape of a cube.

What is the height, in cm, of the cube-shaped box?

19 A recipe for trifle requires the weights of fruit, jelly and sponge to be in a ratio of 5 : 6 : 1.
A trifle that will serve 6 people requires 300 g of jelly.

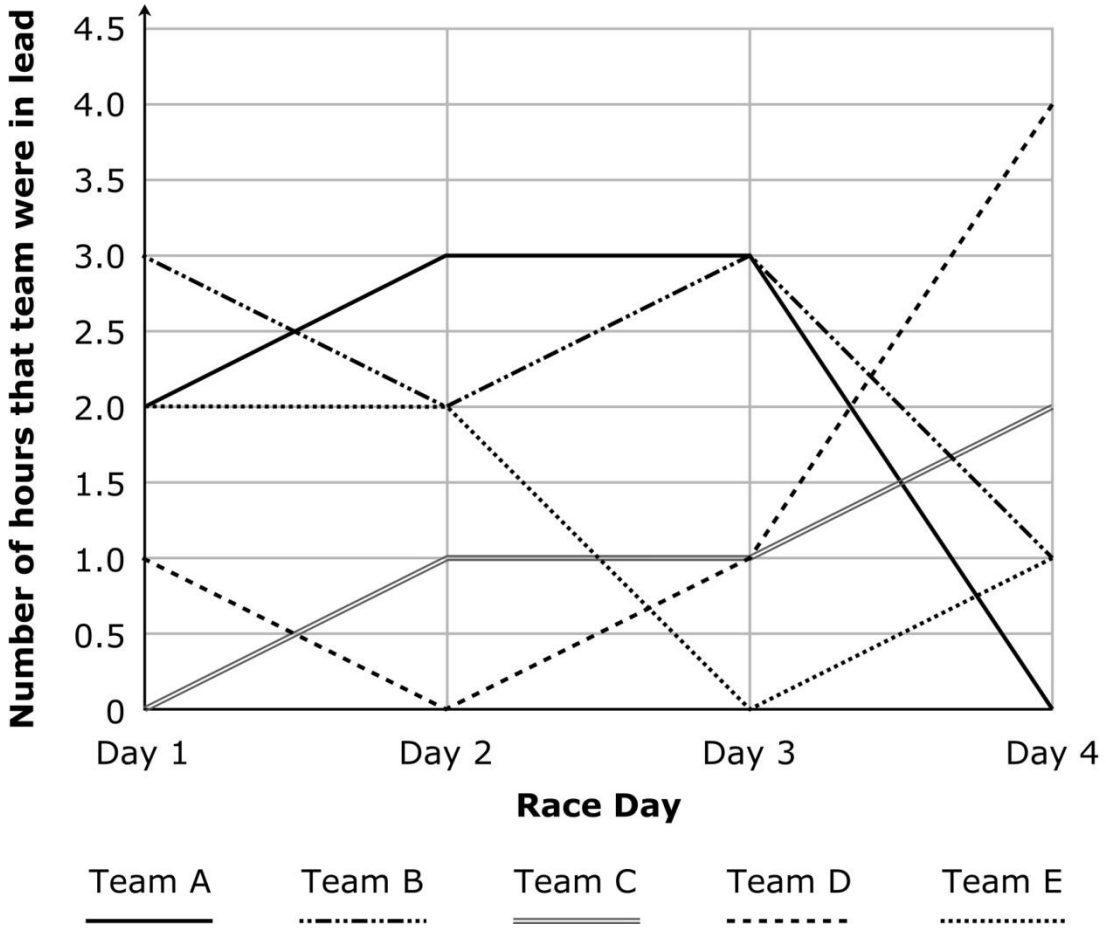

How much sponge, in g, is required to make a trifle that will serve 15 people?

20 My secret 4-digit code is made up of four different prime numbers.
The digit in the hundreds column cannot be found by adding two of the other digits together.
The digit in the units column is the only number that produces an even number when multiplied by 9.
There are two possible codes and my code is the larger number.

What is my code?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

Five teams take part in a four day bike race.
The chart shows the number of hours that each team spends in the lead each day.
Use the chart to answer questions 21–24.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

21 For how many hours do the teams race each day?

22 The teams' final placings are decided according to the total number of hours that they spent in the lead over the four days.

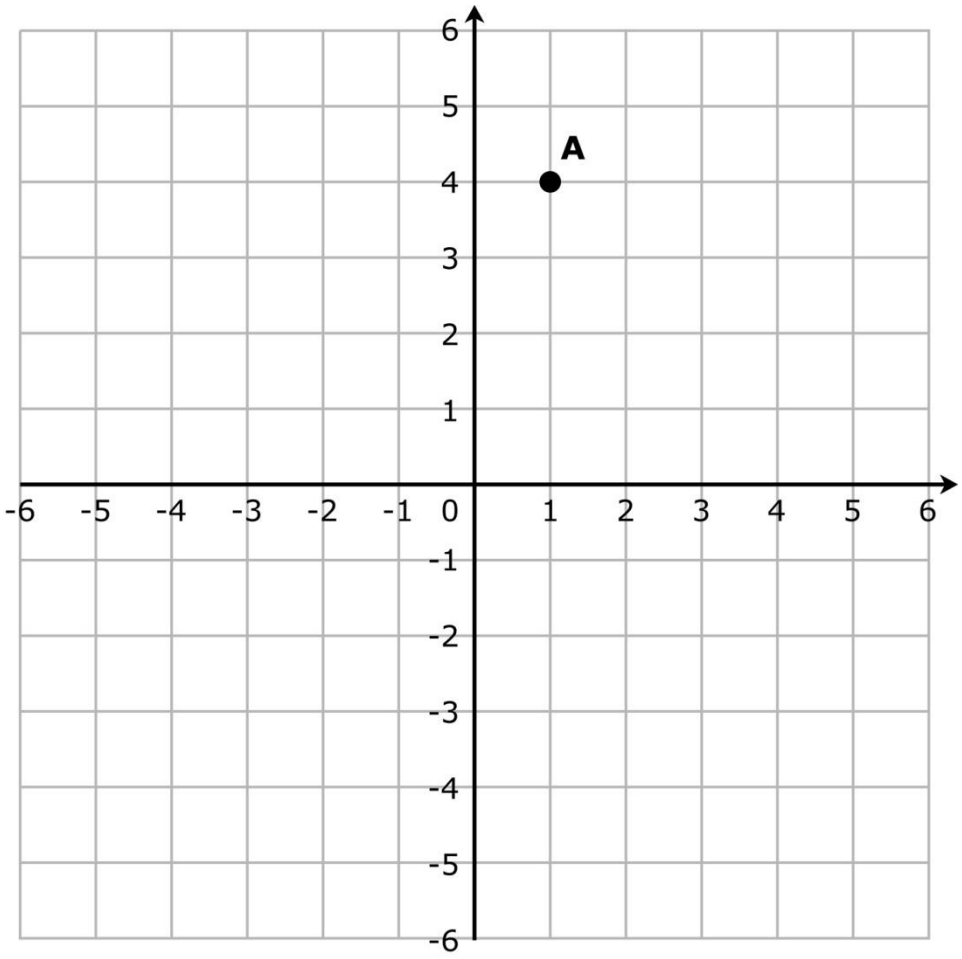

For how many hours was the winning team in the lead over the four days?

23 For what proportion of the race was Team A in the lead?
Give your answer as a decimal.

24 Looking at all four teams, how many times in total did a team increase the number of hours that they were in the lead compared to the previous day?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

25 The grid below is made of square centimetres.

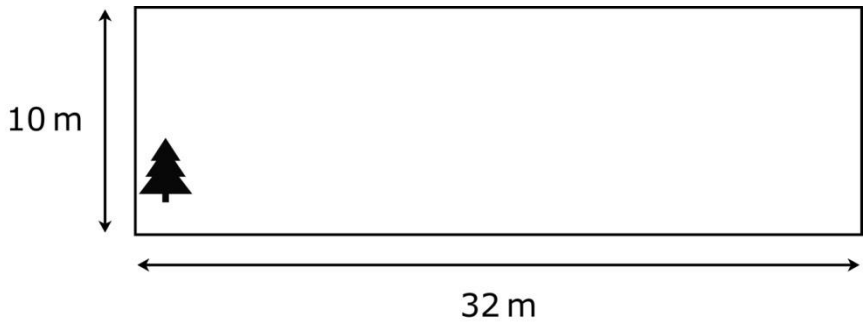

The following points are the end points of a line: (–4, –4) and (4, –4).

What is the shortest distance, in cm, from point **A** to the line?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

26 A farmer wants to plant trees around the inside edge of a field, forming a smaller rectangle inside the field.
The trees must be planted so that their trunks are 1 m apart and 1 m from the edge of the field.

How many trees does the farmer need?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

In each of the following questions, the numbers inside the brackets are somehow calculated from the numbers outside the brackets. For example:

3 [15] 5 7 [21] 3 6 [ ] 2 The answer is 12.

The number inside the brackets is calculated my multiplying the two numbers on either side of the brackets.

For questions 27–30, work out how the numbers in brackets are calculated and then find the missing number.

27 1 [72] 8 3 [70] 7 5 [ ] 4

28 7 [125] 2 4 [27] 1 9 [ ] 5

29 4 [60] 5 7 [42] 2 6 [ ] 3

30 4 [50] 8 4 [25] 16 4 [ ] 10

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

31 What is $3\frac{1}{4} - 1\frac{3}{8}$?

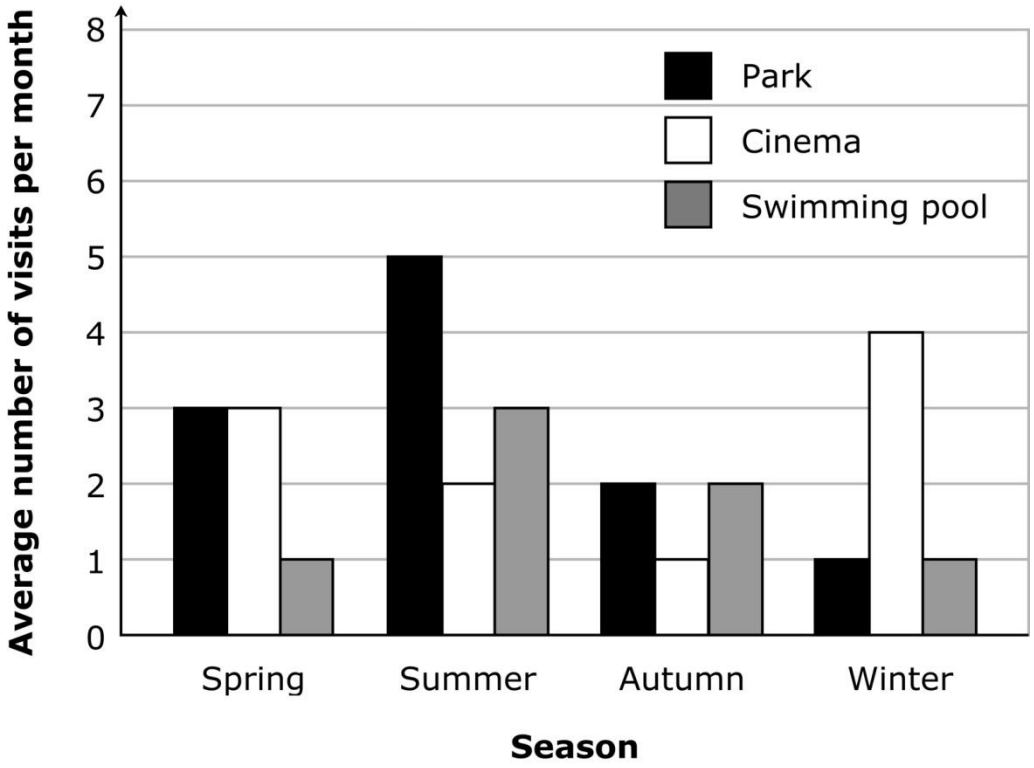

Give your answer as a decimal.

32 One fruit biscuit costs 10 p more than one plain biscuit.

If two fruit biscuits and six plain biscuits cost £2.60, how much does one plain biscuit cost in pence?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

33 The graph shows the average number of times that 30 children visited the park, cinema and swimming pool each month during the different seasons.

Estimate the total number of cinema tickets sold to this group of children during the month of July.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

34 A tank holds 20 litres of water and is full at 12 noon when it starts to leak. The water drips out of the bottom of the tank at a rate of 250 ml every 10 minutes.

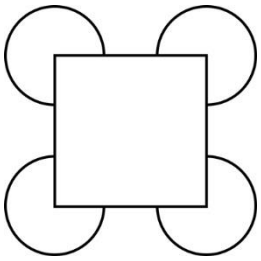

At what time does the tank become completely empty?

35 There are 500 primary-aged children in a town and they all go to school at either Primary A or Primary B.
Primary A has 20 more pupils than Primary B.
Halfway through the year, 5 children leave Primary A and move to Primary B, while 2 children leave Primary B and move to Primary A.

How many children now attend Primary A?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

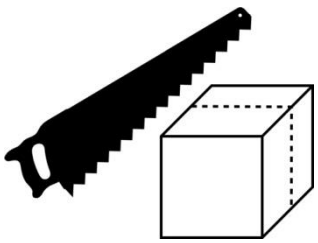

36 The shape below is made from four identical circles and a square.

Each circle has a circumference of 4.1 cm (to 1 d.p.) and a diameter of 1.3 cm (to 1 d.p.).
The area of the square is 4 cm^2.
The vertices of the square touch the centres of the circles.

What is the perimeter of the shape in centimetres (to the nearest cm)?

37 A cube can be cut in half to form two equal parts.
For example, it can be cut through the vertical plane as shown by the dotted line in the diagram.

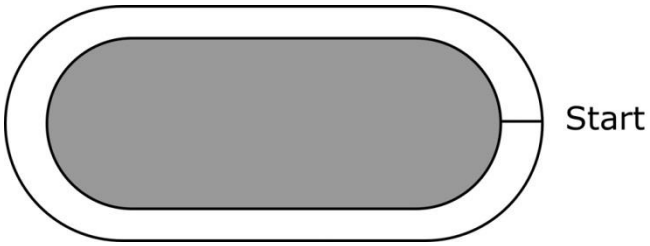

How many different ways (planes) are there to cut the original cube in half to give two symmetrical pieces?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

38 There are 6 red beads, 4 green beads and 8 yellow beads in a bag.
Arya shuts her eyes and takes out one bead at a time at random.
Arya want to be able to confidently say, "I have at least one bead of each colour."

What is the small number of beads that she can take out of the bag and still be confident of having at least one of each colour?

39 Dev and Mia run around a 400 m running track.
The both start from the same point at the same time.

Dev runs in an anticlockwise direction and Mia runs in a clockwise direction.
They meet after Dev has run 160 m.

If Dev ran at a speed of 8 kilometres per hour, how fast did Mia run in kilometres per hour?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

40 The table shows Jon's exam results.

Subject	Jon's Marks	Total Marks Available
Geography	38	70
Maths	70	85
English	56	70
French	47	60
History	62	80
Science	59	70
Latin	74	100
Music	38	50

His marks for each exam are converted into a percentage score.

What is the range of Jon's percentage scores to the nearest whole number?

41 Three fossils are found on a beach.
An archaeologist assesses that Fossil A is three times older than Fossil B, which is 1000 years older than Fossil C.
The archaeologist puts the total age of the fossils at 24 000 years.

How many years old is Fossil A?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

42 Sara makes up a new symbol.

When * appears to the right of a number, a string of increasing, consecutive multipliers should be formed, starting with the number on the left of the symbol and containing the same number of multipliers as the number on the right of the symbol.

For example, $6*^3$ means that you have to start with 6 and multiply three increasing, consecutive numbers together, i.e. $6 \times 7 \times 8 = 336$.

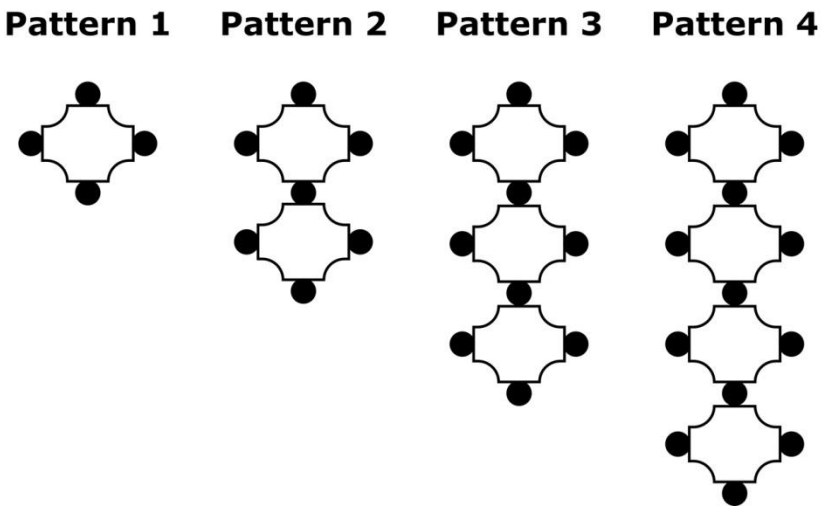

$5*^5 = 5 \times 6 \times 7 \times 8 \times 9$

$4*^2 = 4 \times 5$

What is the value of $2*^5 \div 2*^4$?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

43 The patterns below form a sequence.

How many black circles will there be in the 100th pattern?

44 N is a whole number.
N rounded to the nearest 100 is 1700.
N rounded to the nearest 50 is 1650.
N rounded to the nearest 10 is 1650.

What is the range of possible values for N?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

45 There are 20 pupils in a class.
From these pupils, the teacher will choose a head and a deputy head.

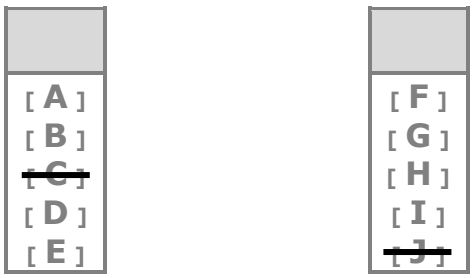

How many different possible ways are there of fillings these roles?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

11+ Kingston – Practice Test 3 – Answer Sheets

English Practice Test

Please mark boxes with a thin horizontal like this:

In the first example, on the left, the answer selected is C.

In the second example, on the right, the answer selected is J.

A line is drawn through the letter. It may go outside the brackets, but MUST NOT cross the outer border of the box.

Maths Practice Test

For multiple-choice questions, please mark boxes in the same way as shown above.

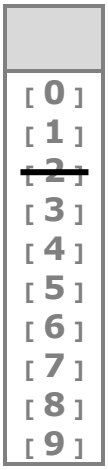

For questions that require numerical answers, there will be columns that represent units, tens, hundreds and thousands.

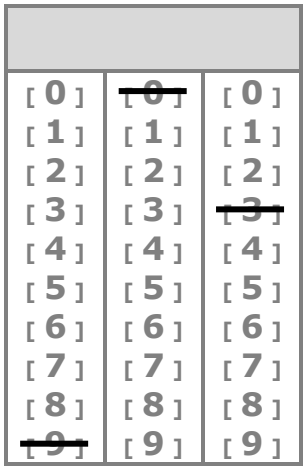

For a single-digit answer, there will be one column on the answer sheet in which to record your answer.

For a 2-digit answer, there will be two columns on the answer sheet.

For a 3-digit answer, there will be three columns on the answer sheet, and so on.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

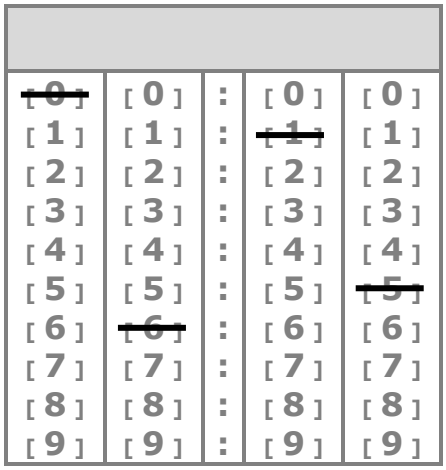

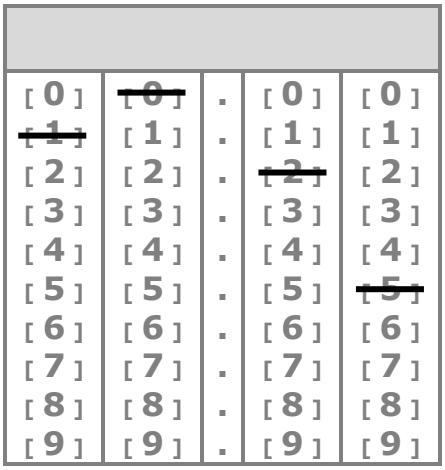

In the first example, on the left, a single-digit answer of 2 is marked.

In the second example, on the right, a 3-digit answer of 903 is marked.

A time answer would be given as a 4-digit answer like a 24-hour digital clock and a money answer would be given in pounds as a decimal number.

In the first example, on the left, an answer of quarter past 6 in the morning (06:15) is marked.

In the second example, on the right, an answer of 10 pounds and 25 pence (£10.25) is marked.

A line is drawn through each digit. It may go outside the brackets, but MUST NOT cross the outer border of the box.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.
