The passage below is taken from *To Please His Wife*, by Thomas Hardy. Ten words have been removed. Choose the **best** word from the list to go in each numbered space and mark its letter on your answer sheet. Each word can be used only once.

A	**interior**	**F**	**footsteps**
B	**face**	**G**	**darkening**
C	**latch**	**H**	**complete**
D	**garb**	**I**	**usual**
E	**rising**	**J**	**figure**

The **(1)** of St. James's Church, in Havenpool Town, was slowly **(2)** under the close clouds of a winter afternoon. It was Sunday: service had just ended, the **(3)** of the parson in the pulpit was buried in his hands, and the congregation, with a cheerful sigh of release, were **(4)** from their knees to depart.

For the moment, the stillness was so **(5)** that the surging of the sea could be heard outside the harbour-bar. Then it was broken by the **(6)** of the clerk going towards the west door to open it in the **(7)** manner for the exit of the assembly. Before, however, he had reached the doorway, the **(8)** was lifted from without, and the dark **(9)** of a man in a sailor's **(10)** appeared against the light.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

The passage below is taken from *The Four-Fifteen Express*, by Amelia B. Edwards. The paragraphs labelled **A–F** are in the wrong order. Put them into the **correct** order.

A	"Just so. I am in the habit of looking forward to this visit as to the brightest three weeks in all the year."

B	"Langford — William Langford. I have known Jonathan Jelf since we were boys together at Merchant Taylor's, and I generally spend a few weeks at Dumbleton in the shooting season. I suppose we are bound for the same destination?"

C	"It is a pleasant house," said Mr Dwerrihouse.

D	"I thought I knew your face," he said; "but your name, I regret to say —"

E	"The pleasantest I know."

F	"Not if you are on your way to the manor," he replied. "I am travelling upon business — rather troublesome business too — while you, doubtless, have only pleasure in view."

11 Mark the letter of the paragraph that should come **first**.

12 Mark the letter of the paragraph that should come **second**.

13 Mark the letter of the paragraph that should come **third**.

14 Mark the letter of the paragraph that should come **fourth**.

15 Mark the letter of the paragraph that should come **fifth**.

16 Mark the letter of the paragraph that should come **last**.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

Read this passage carefully and then answer the questions that follow.

The Call of the Sea

by Frederick Palmer

In this extract we meet Franklin, an orphan who resides with his uncle.

The only memory of his father that Franklin Thompson had was the photograph of a young naval officer in uniform which his mother, with tears in her eyes, often showed him. She died when Franklin was six, leaving him, her only cause for living longer, to the care of his father's brother. When he realised how unwelcome he was in his new home, the only solace he had in the world was the photograph. He would look at it for an hour at a time, and read again and again the inscription on the back.

Before he was quite alone in the world he had heard the sea a-calling. On his holidays he would walk to the shore and watch the ships come and go. Each was a speaking individuality, which he would recognise should he see it again. The salt breath was ever in his nostrils, the tang of salt spray in his veins.

When he was eleven, his cousin Edward, five years his senior, received the appointment to Annapolis. If Franklin felt any envy, he stifled it. The inscription on the photograph in his father's own hand forbade that.

"Be honest; envy nobody; strive hard," it ran.

Two years later, Franklin knew that his school-days were at an end.

"I'll look for a place for you to learn some business," said his uncle, as if the boy's preferences for an occupation did not count.

Early the next morning, Franklin went to the great bay near his home, as he always did when he was heavy of heart. Three men-of-war, one a new battleship, their white sides gleaming, rested their enormous weights on the water as gently as swans. On the battleship it was visiting day. From her side the monster reached down her big gangway, with holystoned steps and immaculate rope, as a gallant officer offers his hand to a lady.

At the threshold of the deck Franklin paused, as one who suddenly sees his dreams materialise in broad daylight. Not one of the sightseers noticed the boy, who stood immovable, noting every detail of the leviathan. Each gun seemed to him a living thing.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

He saw some workers going about their appointed duties and others mending their clothes under the shade of the awnings. The officer of the deck must be the happiest man in the world, Franklin thought. He imagined how his father must have looked, pacing back and forth in the same way. Oh, if his father were only alive, then perhaps he too might go to Annapolis! He looked up at the bridge and imagined himself in a great storm, with the spray stinging his face and blinding his eyes, and the mountain of steel as obedient to his commands as a bicycle to the turn of the handlebar.

"Wouldn't you like to look around a bit?" asked a voice at his elbow.

Its owner, Franklin saw, was a boy of about his own age, dressed in white.

"Would I? Would I?" The way Franklin answered the question was answer enough from one boy to another.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

Answer the questions below. Look at the passage again if you need to.
You should choose the **best** answer and mark its letter on your answer sheet.

17 **What does 'he had heard the sea a-calling' (line 8) tell us?**

A Franklin lived so close to the sea that he could always hear it.
B Franklin felt a close connection to the sea.
C The sea was particularly wild and noisy when Franklin was a boy.

18 **Which one of the following statements is true?**

D Franklin left school when he was sixteen.
E Looking at his father's photograph made Franklin feel distressed.
F Franklin swam in the sea every day.
G Franklin's uncle would have preferred not to have been Franklin's guardian.

19 **What are 'men-of-war' (line 20)?**

H armed ships
I soldiers
J sailors
K guns

20 **Why didn't Franklin's uncle ask him what he wanted to do when he left school?**

L He already knew what Franklin wanted to do.
M He knew what was best for Franklin.
N He was not concerned about what Franklin wanted.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

21 **What do the words 'as he always did when he was heavy of heart' (lines 19–20) tell us?**

O Franklin had a heart condition.
P It was rare for Franklin to feel sad.
Q Franklin frequently felt weighed down by his responsibilities.
R It was not unusual for Franklin to feel sad.
S Franklin was going to need an operation on his heart.

22 **What do the words 'monster' (line 23) and 'mountain' (line 35) emphasise?**

T the number of weapons on the ship
U the size of the ship
V how stormy the sea was
W the ugliness of the ship

23 **Why was Franklin 'immovable' (line 27)?**

A He was scared.
B He was bewildered.
C He was tired.
D He was bored.
E He was captivated.

24 **What would the boy in white have taken Franklin's response of '"Would I? Would I?"' (line 38) to mean?**

F yes
G no
H maybe

The passage below is taken from *The Cost of Living*, by Frederick Orin Bartlett. Read it carefully and then answer the questions that follow.

He timed his day as by a stop watch. He rose at seven, gave himself until eight to finish his solitary breakfast, and, hurrying off to the medical school, remained there until eleven. He was at the hospital from eleven-thirty until three. From three-ten until five he kept his office hours. He generally dined alone in his apartment after this and gave up his evenings to consultations, to the preparation of papers and to study.

It was a long evening, for he seldom retired until two. More often than not he was called to the hospital after this and finished his sleep there. The doctors' quarters were as much home to him as the three book-cluttered rooms which led from his office, and yet there were men — young men, too — who envied Schriftman.

Answer the questions by choosing the **best** answer.
Look at the passage again if you need to.

76 **What is a 'solitary breakfast'?**

A a small breakfast
B a quiet breakfast
C a breakfast eaten alone
D a rushed breakfast

77 **How many hours sleep did Schriftman get on a typical night?**

E about 7 hours
F exactly 5 hours
G less than 5 hours
H at least 6 hours

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

78 **What do you think men envied about Schriftman?**

I his successful career
J his loving family
K his leisure time
L his youth and good looks

The passage on the next page is taken from *Tess of the D'Urbervilles*, by Thomas Hardy. Twenty words and punctuation marks have been removed.

For each numbered space, choose the **correct** spelling or punctuation mark from the two options given and mark its letter on your answer sheet.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

On an evening in the latter part of May a middle (79) aged man was walking homeward from Shaston to the village of Marlot, in the (80) Vale of Blakemore, or Blackmoor. The pair of legs that carried him were rickety, and there was a bias in his (81) which inclined him somewhat to the left of a straight line. He (82) gave a smart nod, as if in confirmation of some opinion, though he was not thinking of anything in (83). An empty egg basket was (84) upon his arm, the nap of his hat was ruffled (85) a patch being quite worn away at its brim where his thumb came in taking it off. Presently he was met by an elderly parson astride on a grey mare, who, as he rode, hummed a wandering tune.

"Good night t'ee (86)" said the man with the basket.

"Good night (87) Sir John," said the parson.

The (88), after another pace or two, halted, and turned around.

(89) Now, sir, begging your pardon; we met last market-day on this road about this time, and I said 'Good night (90) and you made reply 'Good night, Sir John,' as now."

"I did," said the parson.

"And once before that — near a month ago."

"I may have (91) "

"Then what might your meaning be in calling me 'Sir John' these (92) times, when I be (93) Jack Durbeyfield, the haggler (94) "

The parson rode a step or two nearer.

"It was only my (95)," he said; and, after a moment (96) s hesitation: "It was on account of a discovery I made some little time ago, whilst I was hunting up pedigrees for the new county history. I am Parson Tringham, the antiquary, of Stagfoot Lane. Don't you really know, Durbeyfield, that you are the lineal (97) of the ancient and knightly family of the d'Urbervilles, who derive their descent from Sir Pagan d'Urberville, that (98) knight who came from Normandy with William the Conqueror, as appears by Battle Abbey Roll?"

10 The following shape is made up of one shaded square of area 25 cm² and four white squares, each of side length 2 cm.

What is the perimeter of the shape?

U 32 cm
V 26 cm
W 36 cm
X 30 cm
Y 40 cm

11 Second-hand comics cost 75 p each.

How many can Billy purchase for £12?

A 17
B 15
C 14
D 16
E 18

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

12 A large crowd of 10 000 people is ready to leave a stadium.
To avoid any crowding, the crowd is permitted to leave at a rate of 200 people a minute.

How long will it take for all the people in the crowd to leave?

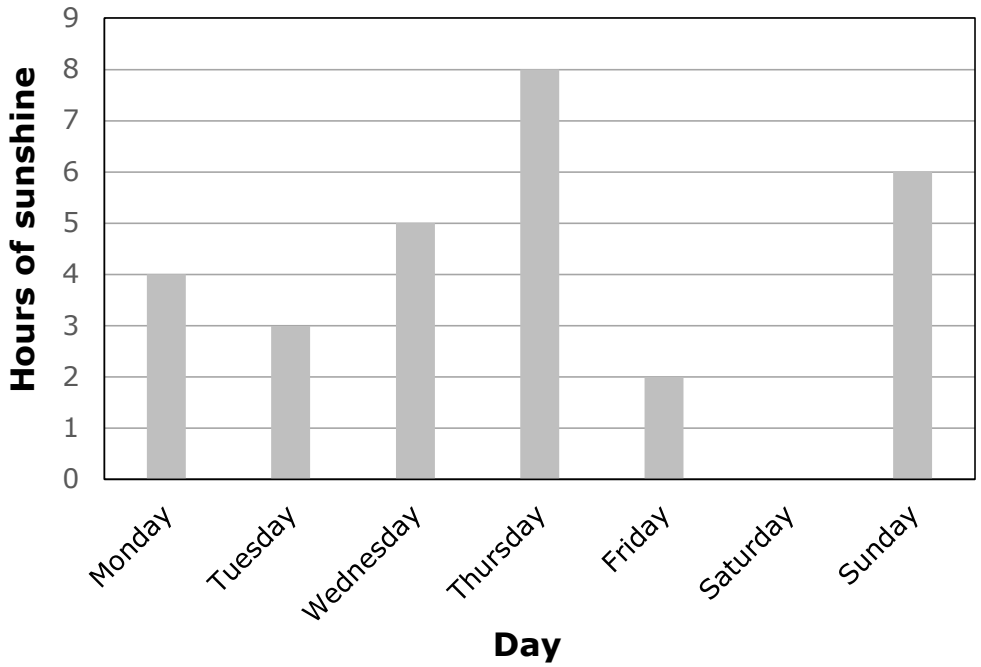

F 50 minutes
G 8 hours and 20 minutes
H 5 minutes
I 100 minutes
J half an hour

13 300 g of flour is removed from a 2 kg bag to make a cake.
Of the flour left in the bag, 20% is then used for a sauce.
Finally, a further 850 g of flour is used to make bread.

How many grams of flour remain in the bag?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

14 The chart shows the number of hours of sunshine by day for one week.

What is the mean number of hours of sunshine per day?

15 In a triangle, the smallest angle is one-ninth the size of the largest angle. The middle-sized angle is double the size of the smallest angle.

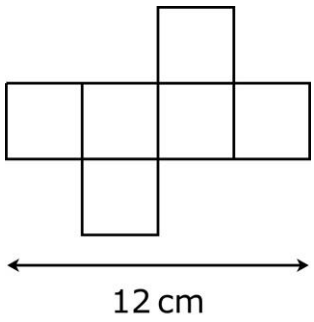

What is the size, in degrees, of the largest angle?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

16 The same button (digit) is pressed three times on a calculator.
Then the subtraction button is pressed.
Another button (digit) is pressed twice on the calculator.
The equal button is then pressed and the answer is 456.

What would the answer have been if the addition button was pressed instead of the subtraction button?

17 The net of a cube is 12 cm in length.

What is the volume, in cm^3, of the cube formed from the net?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

18 What is the smallest positive integer that can be added to 896 to make a multiple of 24?

19 Three identical bottles contain different amounts of water.
Bottle A (plus water) weighs 1.3 kg, bottle B (plus water) weighs 1.57 kg and bottle C (plus water) weighs 1.85 kg.
1 litre of water weighs 1 kg.
The total weight of water in the three bottles is 3.22 kg.

What is the weight of one bottle in grams?

20 $\frac{3}{5}$ of N is 60 and $\frac{2}{3}$ of P is 40.

What is the value of $N - P$?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

21 In a café, coffee costs 20 p more than tea.
A group of 20 visitors each order one drink and spend a total of £22.80.
Half of the group order tea and the rest order coffee.

What is the price, in pounds, of a cup of coffee?

22 A train travels 230 miles from London to Liverpool.
The train leaves at 2 p.m. and travels at an average speed of 60 miles per hour.

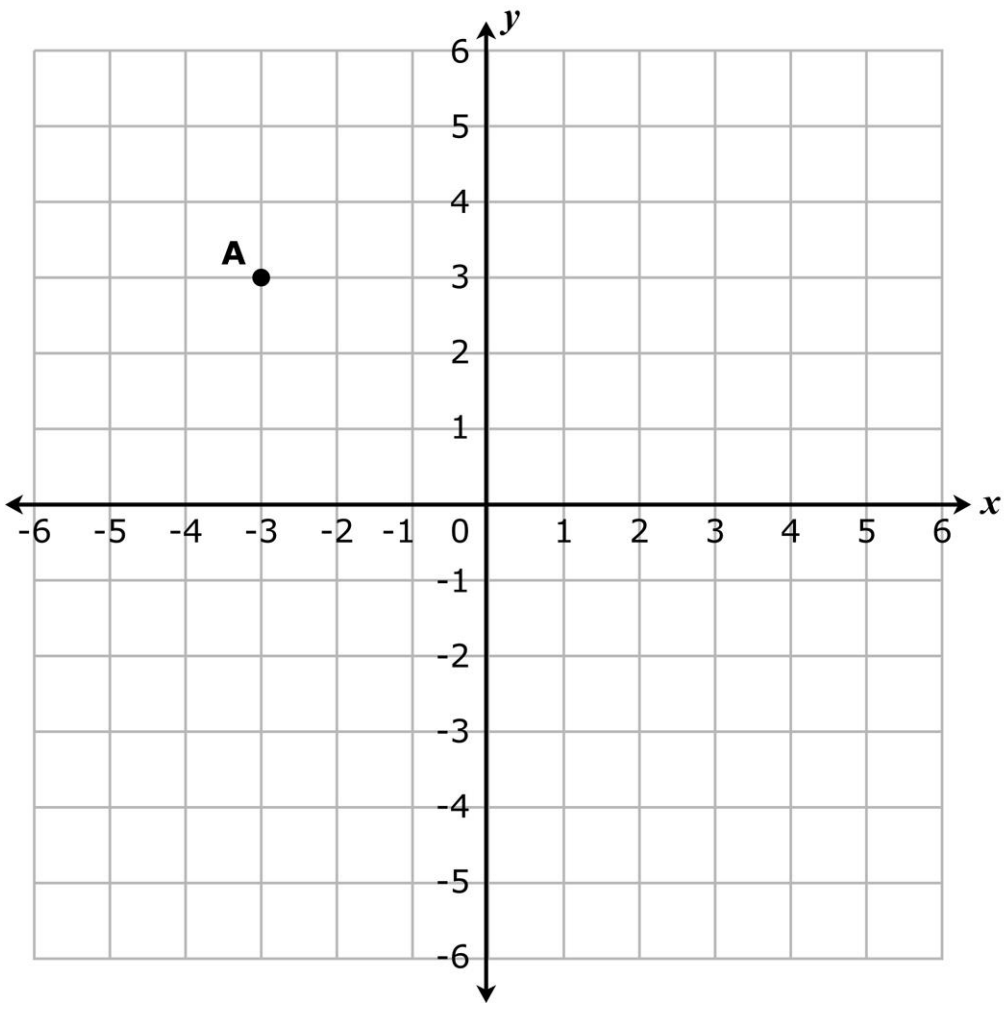

At what time does the train arrive in Liverpool?

23 A perfect number is one with factors (excluding the number itself) that add up to the number.
For example, 6 is a perfect number because its factors (excluding itself) are 1, 2 and 3, which add up to 6.

Which perfect number lies between 20 and 30?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

24 A line is drawn from point A at (–3, 3) to point B at (5, –3).

What is the sum of the x and y coordinates of the midpoint of line AB?

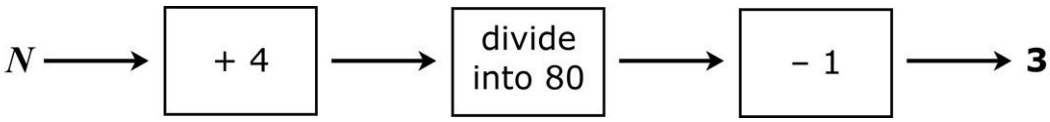

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

25 If $2x + 1 = 27$, what is the value of $50 - x$?

26 If $30 \div y = 6$, what is the value of $4y + 7$?

27 If $\frac{z + 2}{z - 2} = 3$, what is the value of z?

28 A number, N, is put into the following function machine:

If 3 is the output, what is the value of N?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

29 Isaac thinks of a positive number.
He squares the number and then subtracts the result from 100.
Isaac then adds 1 to the answer and multiplies by 2.

If the result is 40, what was Isaac's original number?

30 How many times larger is 10^6 than 10^3?

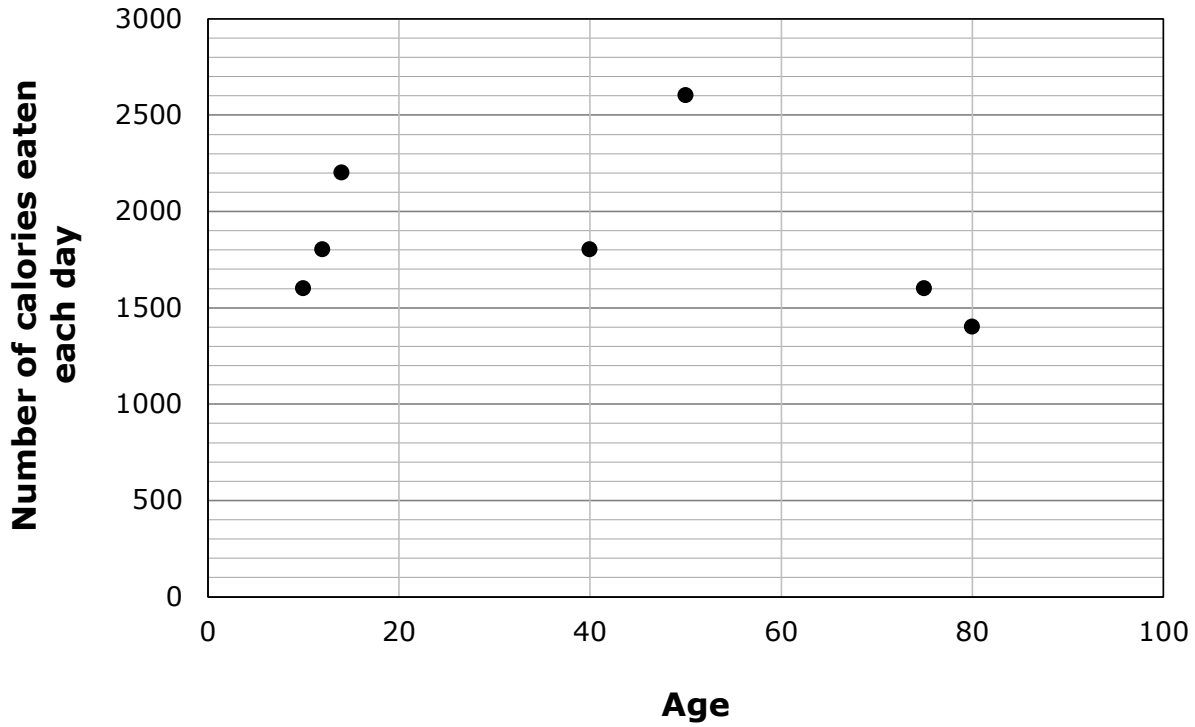

31 The mean weight of 6 bananas is 100 g.
The mean weight of 5 apples is 80 g.
The mean weight of 4 oranges is 110 g.

What is the mean weight, in g, of all 15 pieces of fruit?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

The graph shows the number of calories eaten daily by members of Barry's family.

Barry lives with two siblings, his mother and father and two grandparents.

Study the graph and then answer questions 32–34.

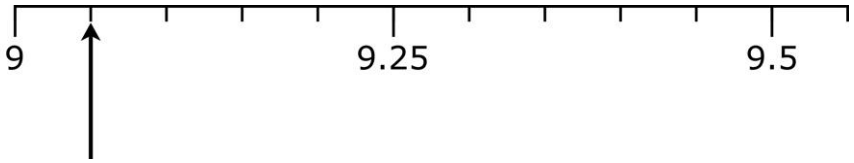

32 What is the median number of calories eaten per person each day?

33 What is the range of ages in Barry's household?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

34 What percentage, to the nearest whole number, of Barry's family eat more than 1700 calories per day?

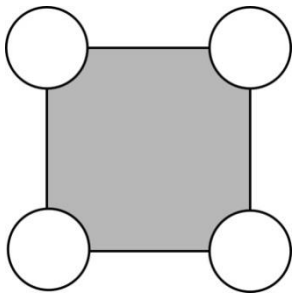

35 Look at the number line below.

To what number does the arrow point?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

36 The diagram shows a shaded square of side length 3 cm and four identical circles.
The centres of the circles are touching the vertices of the square, as shown.

If the area of each circle is 3 cm², what is the area of the shaded portion of the shape in cm²?

37 If the R value for a virus is 1, it means that each person with the virus will pass it on to one new person.
Assume that it takes one week for the virus to be passed on.

If 100 people have a virus and the R value is 2, how many more people can be expected to catch the virus within 3 weeks?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

38 One hollow cube measuring 6 cm in length is full of water.
The water is tipped into two other hollow cubes so that they are both filled to the top and there is 90 cm^3 of water left in the original cube.
All the cubes have lengths of whole cm.

What is the difference in length, in cm, between the two full cubes?

39 The number 1001 contains two zeros.

How many whole numbers **greater** than 100 but less than 1999 contain exactly two zeros?

40 Granny Gen has 70 sweets.
If she divides them equally between her great-grandchildren she will have 4 left over.
If, instead, she divides them equally between her grandchildren, she will have 10 left over.
Granny Gen has twice as many grandchildren as great-grandchildren.

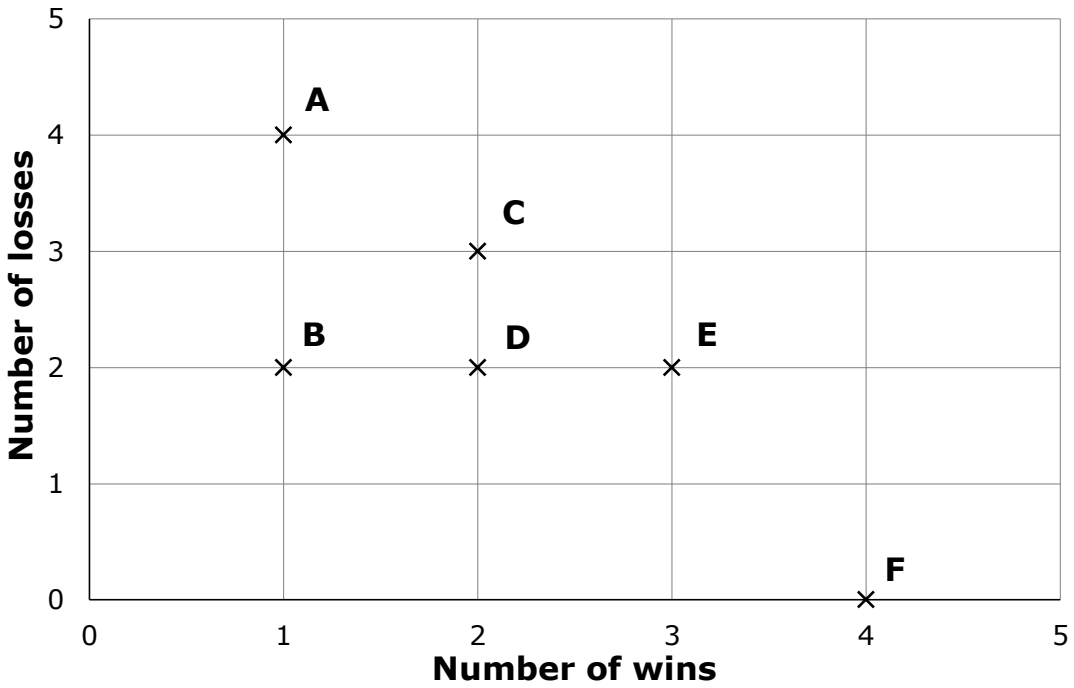

How many great-grandchildren does Granny Gen have?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

41 What number should go in the empty box to make the statement correct?

$47 \div \frac{1}{10} = 40 \times 10 + 7 \times \square$

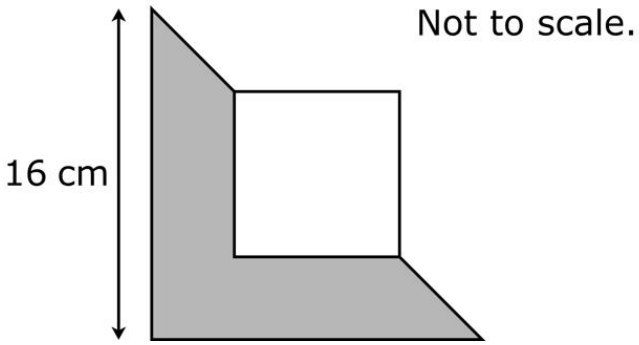

42 Six football teams, A – F, all play each other once.
The graph shows the number of wins and losses that each team has.

How many of the games were drawn?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

43 The diagram shows a white square with a perimeter of 48 cm placed on top of an isosceles right-angled triangle.
Two vertices of the square touch the longest side of the triangle, as shown.

What is the area, in cm², of the shaded section of the diagram?

44 What is the result of $\frac{30 \times 29 \times 28 \times 27 \times 26 \times 25 \times 24 \times 23 \times 22}{22 \times 23 \times 24 \times 25 \times 27 \times 28 \times 29 \times 30}$?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

45 There are a mixture of 50 pens and pencils in Clara's pencil case. The ratio of pens to pencils is 3:2.

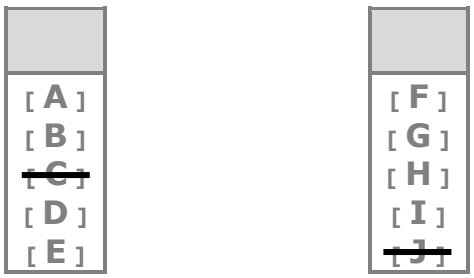

How many pens should Clara remove in order to have the pens and pencils in the pencil case in a ratio of 4:5?

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

11+ Kingston – Practice Test 6 – Answer Sheets

English Practice Test

Please mark boxes with a thin horizontal like this:

In the first example, on the left, the answer selected is C.

In the second example, on the right, the answer selected is J.

A line is drawn through the letter. It may go outside the brackets, but MUST NOT cross the outer border of the box.

Maths Practice Test

For multiple-choice questions, please mark boxes in the same way as shown above.

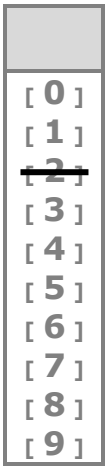

For questions that require numerical answers, there will be columns that represent units, tens, hundreds and thousands.

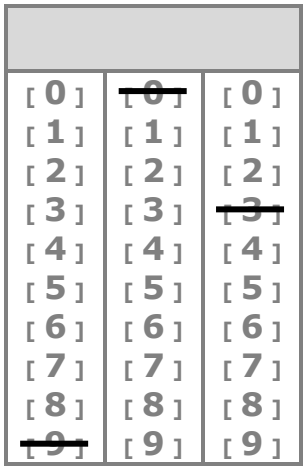

For a single-digit answer, there will be one column on the answer sheet in which to record your answer.

For a 2-digit answer, there will be two columns on the answer sheet.

For a 3-digit answer, there will be three columns on the answer sheet, and so on.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.

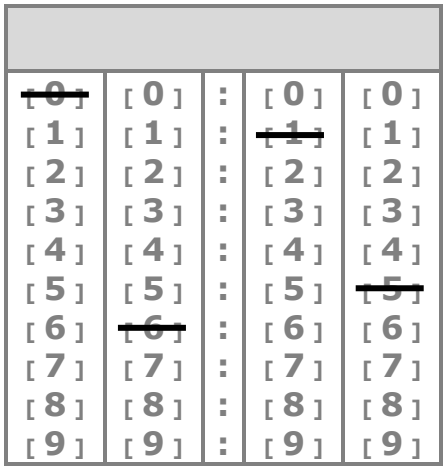

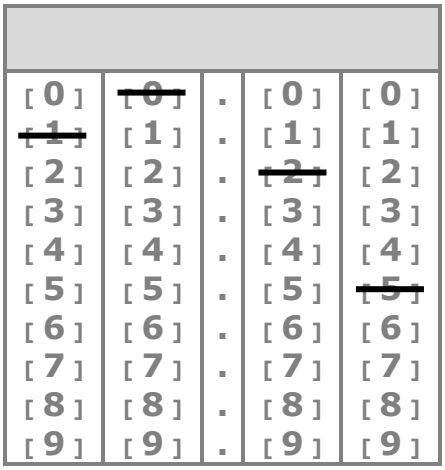

In the first example, on the left, a single-digit answer of 2 is marked.

In the second example, on the right, a 3-digit answer of 903 is marked.

A time answer would be given as a 4-digit answer like a 24-hour digital clock and a money answer would be given in pounds as a decimal number.

In the first example, on the left, an answer of quarter past 6 in the morning (06:15) is marked.

In the second example, on the right, an answer of 10 pounds and 25 pence (£10.25) is marked.

A line is drawn through each digit. It may go outside the brackets, but MUST NOT cross the outer border of the box.

2022-2023 Edition. This product is licensed solely for the personal and private use of Paloma De Sande, 32 Hollington Crescent, New Malden, KT3 6RR, paloma_de_sande@hotmail.com.
